

Medical Assistance in Dying

Policy Statement

Inspired by the Sisters of St. Joseph of Peterborough, and under the sponsorship of the Catholic Health Sponsors of Ontario, St. Joseph at Fleming is committed to providing quality long- term care for those who have made it their home. As an institution, then, it will not initiate physician assisted death, nor does it see itself as a place where it will be practiced. Within those constraints, it is committed to treating all its residents with dignity, compassion and respect for informed, conscientious decisions, and will act accordingly.
